MODERN LIGHTING

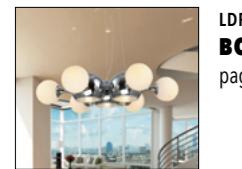

Modern lamps constitute a combination of bravery with serenity, a raw cluster with a bit of spice. This group of products contains unusual and extravagant patterns which will surely add a unique character to each room. The following propositions allow for more imagination in the design of the interior, make them stylish and show the personality of its owner in a perfect manner. Sophisticated designs will impress with a diverse range that meets the expectations of the most demanding customers. The proven quality, in turn, will meet the highest market standards.

4-125

Modern lamps will fit perfectly in rooms furnished according to current trends, as well as those more original and reflecting their owner's personality. Thanks to them exposing your love for art and designing a modernist interior is easier than ever before.

LOFT

Glass and metal are a matching pair, especially when they connect their forces in lighting design. Those materials fit perfectly in the role of an industrial illumination, when they take the raw form typical for the loft aesthetics.

A trend strongly inspired by industrial spaces as well as fishing boats is apparent in the lamps finished off with a metal cage and other raw-looking ornaments.

Lamps of that type would fit perfectly as kitchen illumination. They will definitely prove themselves useful in modern and stylish offices as well as inspiring, unique restaurants and dinning rooms.

FLOOR & TABLE

A new floor lamp will become part of the home as an interior decoration element on its own right. That is why it is important that the floor lamp you choose is a beautiful design lamp that adds something extra to the interior decoration. Floor lamps are often used to light up the darkest areas of the different rooms of the home but are also commonly used as a reading light. Our designer floor lamps not only look fabulous but also create warmth and ambience in the home.
